

OFFSHORE BRANDS: PROMOTIONS AND RETENTION

The twelve offshore casinos that compete hardest for Argentine players, read for how their welcome offers and promotions work, the retention mechanics built into their products, their cashiers, how they buy traffic and what players complain about: 1xBet, 1win, Melbet, Megapari, Mostbet, 22Bet, Brazino777, JugaBet, Fortunazo, Pin-Up, Stake and Shuffle. What they do well, where they break, and what Trillix takes from it.

WHAT THE OFFSHORE MARKET TEACHES

Offshore brands win Argentine players with pesos, crash games, cashback and a promotion for every day of the week. They lose them at the withdrawal and in the reviews. Their welcome offers are bigger than the licensed brands' and their retention is a real programme, not a calendar of rituals; their cashiers and their trust are where a new brand can beat them.

- **Bigger caps, the same traps.** Casino packs run from \$600.000 (Brazino777, JugaBet) to \$2.700.000 (Megapari) at x30 to x60, in windows from 72 hours (Mostbet x60, Pin-Up x50) to 30 days (JugaBet, Megapari). Margin is protected by max-win caps of 10x the bonus (JugaBet), conversion capped at the bonus (22Bet, Mostbet), max bets of \$5.285 to \$8.800, real money played first, and crash excluded from wagering (Brazino777, 22Bet, and the games half of the 1xBet sports bonus).
- **The welcome is split by game type.** JugaBet and Fortunazo let the player pick a casino, live, crash or sports pack at sign-up; the crash pack runs at x40 with free plays on Plinko. Mostbet and Pin-Up pay for speed: 125% if the first deposit lands within 30 minutes of sign-up, 120% within one hour.
- **Cashback is the retention engine.** All twelve pay cashback or rakeback: Brazino777 7% to 12% weekly by days active, Fortunazo 3% to 15% daily by level, JugaBet 4% to 7% by VIP tier, and the platform shared by 1xBet, Melbet and Megapari (22Bet runs the same table) 5% to 11% of losses over eight levels, with no wagering at Melbet. None of the nine licensed brands publishes a cashback percentage.
- **A weekday calendar sells the next deposit.** Free spins tiered by deposit size on fixed days (Melbet's Chicken Road 2.0 race on Monday, Tuesday and Thursday), Friday reloads, Sunday Aviator free bets, a free daily wheel, a 10th-deposit bonus. Brazino777's Monday booster unlocks only after three deposits.
- **Levels, missions and status matching.** JugaBet's mission club opens VIP at level 16; Fortunazo runs 36 levels; 1win 20 tiers with a concierge; Mostbet pays coins for daily tasks. JugaBet and 1win take over a player's VIP status from another site, 1win within 48 hours.
- **Data and channels are bought with spins.** 50 free spins for confirming phone and e-mail, 20 to 100 spins or 200 points for installing the app, 100 spins for joining the Telegram channel, points for allowing push notifications.
- **The cashier is fast on paper and contested in practice.** Mercado Pago, Argentine wallets, AstroPay, cash networks and USDT in; stated payouts from minutes to 6 business days. Every complaint board says the same three things: deposits not credited, withdrawals marked paid that never arrive, verification loops (Mostbet: "60 or more days").
- **Trust and language are thin.** Trustpilot withholds the score of 6 of the 12 after removing fake reviews; 1win and Pin-Up sit at 1,7. Most sites use voseo in banners and "usted" in the terms, with peso amounts converted from euros (\$369.950, \$182.519,29).
- **Supply is moving toward Argentina.** On 25 September 2026 the Brazino777 affiliate programme told its affiliates to stop all Brazil campaigns after a Brazilian measure against online betting; Argentina is on its key-market list. More operators and affiliates will bid for Argentine traffic in the fourth quarter.

Reading. Trillix's welcome today is Brazino777's structure (100% / 75% / 50%) with euro caps of €500 / €750 / €1.000: about \$3.800.000 at the cashier's own rate (€20 = \$33.879), the largest headline in this document. It loses on the terms, not the size: x40 in 7 days with crash at 0% and a \$33.879 minimum, above every brand here. A peso pack at x35 over 30 days from \$5.000, with a separate crash pack at x40 and a published max win, sits with JugaBet and Megapari at the player-friendly end of the offshore field.

Where Trillix wins. Offshore cashiers are wide on the way in and narrow on the way out: payouts only to the deposit method, weekday office hours, verification that restarts, "paid" statuses that do not match the bank. Payouts in under an hour on USDT and Mercado Pago, published times on the cashier page, verification done once, no weekday-only processing and round peso minimums are the message no offshore brand can prove today.

07 · PRODUCT AND TRUST

CRASH EVERYWHERE, TRUST NOWHERE

- Crash.** All twelve run a crash shelf and ten carry Aviator; Stake and Shuffle run their own provably fair Crash, Plinko and Mines. Own studios are common: 1xGames, 1win's Lucky Jet and Speed & Cash, Megapari's MegaGames, 22Games, and Jugabet Games (Chicken Road Pirate Edition, Pirate Jackpot Mines, Plinko x5000).
- Chicken Road is the new front row.** Melbet lists Chicken Road, Chicken Road 2.0 and Chicken Highway; Fortunazo's crash lobby is led by four Chicken Road versions; JugaBet runs its own; 1xBet promotes a chicken game; Stake has a Chicken original. Aviatrix is pushed by JugaBet (NFT plane) and Brazino777 ("Exclusivo").
- But the welcome rarely lets crash count.** Brazino777 weights crash at 0% and lists Aviator as excluded; 22Bet excludes its crash titles; 1xBet excludes crash from the games half of its sports bonus. Only JugaBet and Fortunazo give crash its own pack; Melbet and Megapari count their own fast games double.
- Catalogues and live.** From 7.659 games (Brazino777) to 17.048 (Mostbet, with 1.945 live). 1win runs 275 live games with a Spanish-tables category and its own studio; JugaBet 52 Spanish tables; 1xBet takes live bets from \$50 to \$500.000 and \$5.000.000 at VIP tables.
- Licences.** Ten of the twelve on Curaçao, most on the new 2024 Gaming Control Board licences; Brazino777 on Anjouan, the same regulator as Trillix; Megapari shows no licence on its mirror. Stake also holds a Buenos Aires Province licence for a separate site since June 2026.

HOW THEY BUY ARGENTINE PLAYERS

Every brand here is bought through affiliates, mirrors and content; none can use Google, Meta or TikTok ads in Argentina. Published affiliate terms are revenue share first, CPA by negotiation.

BRAND	AFFILIATE TERMS AS PUBLISHED	CHANNELS VISIBLE IN ARGENTINA
1xBet	Revenue share 15% to 45%, negative carryover, paid weekly, 2% sub-affiliate	Mirror domains, a cash-agent network ("Convertirse en agente"), promo-code pages in Argentine sports media, FC Barcelona, PSG and the 9z esports team
1win	Revenue share up to 50% (60% at the top), CPA up to US\$200, hybrid, no negative carryover, paid weekly	Ambassadors (Ignacio Bahamondes, Canelo Álvarez, Nicky Jam), a creator house for Twitch and Kick streamers, about 2.500 Latin American partners, paid articles in regional media (El Ancasti, iProfesional, NoticiasNQN), the top Argentine casino streamer
Melbet	Revenue share 25% to 40% lifetime; CPA, hybrid, CPL and CPI; negative carryover; paid weekly	Review and "is it a scam" sites listed among its own affiliates
Megapari	Revenue share 25% to 50% by new customers, no negative carryover (per review sites)	Numbered mirror domains; first place in an affiliate ranking published by a national business daily
Mostbet	Revenue share 30% to 60%, CPA up to US\$220 held until conversion and 30-day retention targets are met (per review sites)	The densest mirror and SEO layer: four or more "Mostbet Argentina" domains
22Bet	Revenue share 20% to 50%, no negative carryover, 5% sub-affiliate, CPA on request, brand bidding forbidden (per review sites)	Sponsored rankings and paid features
Brazino777	Revenue share 25% to 50% by deposit volume and FTD count; no CPA published	Key markets listed as Chile, Ecuador, Colombia and Argentina; Brazil campaigns stopped on 25 September 2026
JugaBet	Revenue share up to 50%, CPA up to EUR 1.000, hybrid EUR 100 + 40%, 3% sub-affiliate; its calculator defaults to Argentina, Facebook traffic, a "Chicken" angle and US\$14 per FTD	Redirect chains to mirrors, retention landing pages, two Telegram channels, a superclásico invitation for VIPs
Fortunazo	No public programme	Clone review domains, paid articles in regional media, an own blog
Pin-Up	CPA up to US\$200, revenue share up to 50%; starting CPA in Latin America US\$20 to US\$25; World Cup boosts up to +20% (per review sites)	The heaviest network of mirrors and unlabelled "reviews" in Argentine regional media, each linking to a mirror
Stake	10% of the house edge on referred bets, negotiable to 40%; revenue share up to 45% (per review sites)	Kun Agüero on Kick since 2022, Iker Casillas, a Kick launch event in Olivos in June 2026, clone domains
Shuffle	10% and up of the house edge on wagers, lifetime, paid instantly	Its own Kick channel, races and lotteries streamed live, a Sunderland AFC sponsorship; no Argentine streamer found

- **Enforcement is aimed at the promoters.** About 110 influencers are under investigation; every ad, stream included, must carry the "+18" mark and a gambling warning since 6 August 2026; personal-CVU cashier networks were prosecuted as money laundering. Mirror-and-advertorial networks are the most exposed acquisition model in this table.
- **More bidders for the same traffic.** Brazil-focused programmes are moving budgets out of Brazil; the Brazino777 programme already names Argentina as a key market. Affiliates who run Argentine traffic will be offered more in the fourth quarter.

COPY, BEAT, AVOID

Copy into the Trillix promotion pack

- **A welcome picked by game type.** Casino, crash and live packs chosen at sign-up, each with its own terms in pesos: casino at x35 over 30 days, crash at x40 with free plays on Aviator or Chicken Road and a published max win. Trillix's sign-up already starts with a bonus pick.
- **Weekly cashback as the core retention offer.** 5% to 12% of weekly losses by level or days active, paid on a fixed day, at x3 or less. Trillix pays none today; every offshore competitor does.
- **Cashback attached to the levels.** Trillix has 11 loyalty levels and a cash store; give each level a cashback rate, price the store in pesos, and add a wheel spin at each level-up, as Fortunazo runs it.
- **A weekday calendar in round pesos.** Spins tiered by deposit size on two fixed days in round peso steps, a Friday reload, a Sunday crash free-bet day; Trillix's Thursday 50% reload becomes one day of the week.
- **Spins for data and channels.** Free spins for confirming phone and e-mail, for installing the app or web app, and for joining the Telegram channel: the cheapest way to fill the channels every later promotion runs on.
- **VIP status transfer.** Match the level a player shows from another site for a trial period and keep it if they keep depositing; it targets exactly the players the offshore brands are losing over withdrawals.
- **Provider money first.** Pragmatic Drops & Wins, Aviatix campaigns and studio tournaments, funded by the studios, before any own prize tournament; tournaments are switched off on Trillix today.

Beat them where they are weak

- **Payouts.** USDT and Mercado Pago in under an hour, every day of the week, with the times printed on the cashier and verification done once. Offshore complaints are about withdrawals that say "paid" and are not.
- **Trust that can be checked.** A licence seal that validates, real payout times instead of a homepage counter, no solicited reviews: 6 of 12 competitors have lost their Trustpilot score.
- **Argentine Spanish all the way down.** Voseo in the terms as well as the banners, and round peso amounts (\$5.000, \$20.000) instead of euro conversions such as \$369.950.
- **Crash that counts.** Most offshore welcomes exclude crash; a crash pack with crash at full weight inside it is a message only JugaBet and Fortunazo can match.
- **Minimum deposit.** \$5.000 on every method, in the offshore band of \$3.000 to \$13.000; today's \$33.879 is above all twelve.

Avoid

- Deposits collected through personal accounts (the JugaBet complaint): cashier networks of personal CVU accounts were prosecuted as money laundering.
- Pre-ticked consents and declarations at sign-up, homepage counters that contradict the help page, headlines that differ from the terms (JugaBet x45 against x40).
- Max-win caps and "any withdrawal cancels the bonus" rules that are not in the creative; 72-hour windows at x50 to x60.
- Unlabelled advertorials, clone review domains and solicited reviews in the affiliate mix; the 2026 enforcement targets promoters first.
